Speaker: Dr. Amiya K. Tripathy

Total number of participants: 62

The session commenced with a brief discussion on the subject of the webinar. Dr. Amiya Tripathy explained the basics of Literature Review and its significance. He listed diverse resources to refer for a Literature Review which motivated students to look beyond research papers. He explained in detail about the process and the ‘Dos and Don’ts’ of Literature Review.

Dr. Amiya Tripathy demonstrated a few tricks to search for resources smartly on the internet. After collecting the sources, how to read fast and efficiently, picking up the required subject matter was explained. He also warned about the misleading predatory journals.

The structure of writing a Literature review was explained through actual papers published by the senior students during their BE project activity. Students were inspired to give their best. The session ended with a grateful vote of thanks from the fellow student, Mansi on behalf of the BE class.

Highlights of the Session

REC

What a literature review looks like?

- A literature review discusses published information in a particular subject area, and sometimes information in a particular subject area within a certain time period. A literature review can be just a simple summary of the sources, but it usually has an **organizational pattern** and **combines both summary and synthesis**.

How do you keep notes in literature?

• Helpful tips

- Write **notes** in your own words instead of copying down information from the book.
- **Avoid** over-highlighting. ...
- Wait until the end of a page to **take notes** so that you can better focus on what you are reading and so that you can try to summarize in your own words rather than copy.
